

QuickTip

ACCREDITATION | December 5 to 9, 2022

Q-Tip #24

CONCENTRATED ELECTROLYTES

- Concentrated electrolytes are high-alert medications that can result in significant harm if administered in error.
- Limited amounts are stored in sealed emergency defibrillator carts and locked inside the AACU medication room.
- Additional safeguards include:
 - ✓ Safe storage
 - ✓ High alert labels
 - ✓ Regular auditing and monitoring
- For more information [Concentrated Electrolyte](#) policy document.

Ensure Medication Safety
